On May 29, 2021 Otto Elderenbosch passed away. The entrepreneurial co-founder of elho started our company in 1964 together with Saskia Horstmeier and laid the foundation for what our company stands for today. Otto's drive for entrepreneurship is everywhere in our DNA.

We cherish his life motto: "celebrate life"

Hello FROM ELHO

Our family company is proud to be your most sustainable partner and leading innovator in the synthetic pottery market for more than 55 years. Together with our partners we inspire shoppers in more than 75 countries worldwide to bring today's nature into people's daily lives.

We feel a strong responsibility to do good across our entire supply chain, with nature and our people always in mind. Together with our team and our retail partners, we will continue to develop and contribute to a greener world and connect as many people as possible with nature.

We are incredibly proud to be a Certified B Corporation as of January 2021. Certified B Corporations™ are companies that use the power of business to build a more inclusive and sustainable economy. This B Corp status comes with an explicit responsibility: to keep the world a livable, healthy and safe place for future generations.

Our partnership continues to build on three drivers; elho is the leading innovator in the market and offers you the best support. We create all our products in the most meaningful way by always creating long lasting, beautiful designed products with more than 90% recycled materials and connect with millions of shoppers and consumers to inspire them. We do this for our customers, for the customers of our customer and for the world around us. Our success is measurable: we offer you traffic to your stores, we will grow your shopper basket value and increase profit per m², which will result for you in improved business results. And together, we will make the world greener!

Give Room to Nature

TOGETHER WE GIVE *Room* TO *Nature*

GIVE *Room* TO *Nature*

Nature has given us everything. From the air we breathe, to the food we eat. We are not apart from nature – we are part of it. Its well-being is our well-being. And when it flourishes, we flourish. That's why we at elho create beautiful designer pots and smart solutions for your plants in a sustainable way, made out of recycled plastics and powered by renewable energy.

It's our dream to build a greener, better world - and encourage others to join us.

So let's Learn from nature - be amazed by it, inspired by it, and let's share knowledge with other people, so we can grow, together. Let's Love nature, surround ourselves with it, and bring it back into our daily lives, into our neighbourhoods, our homes, our work, our playgrounds. And let's Return the gifts the earth has shared with us. Let's be inspired by the cyclicity of nature, and repair, reuse and recycle. Because small actions today... cause big changes tomorrow.

A BEAUTIFUL GREENER WORLD TO BLOSSOM

A greening movement is changing the way we relate to mother earth. We want to invite you to join us. Let's work together, and step-by-step, we'll create a world where nature and people can blossom. Because to truly be in touch with nature, we need our hands back in the dirt.

THE BENEFITS OF *nature*

It makes you happier, it makes you
feel healthier, it boosts your energy

WE LOVE TO *innovate*

Innovation is what drives our market. elho is proud to be the leading innovator in the synthetic pottery market, making you relevant for current and future shoppers.

PLANTS GET MORE ROOM The urbanisation continues, it is predicted that in 2030 60% of the world population is living in cities packed with buildings, cars and people. People who strongly need green in their environment to stay healthy and happy.

SAFE HAVEN Your home is getting more and more important. It is the place where you feel safe and at ease. This is reflected in a growing need for friendly colours and organic shapes in consumer's interiors. You also see that in- and outdoor spaces are blurring and plants are more and more placed both indoor and outdoor.

CIRCULARITY Waste. For us it is sheer beauty. Because we create beautiful designer pots made out of recycled plastics. It is important for future innovations and or the future of our planet.

THEMES 2022

PLANT CARE Consumers do want more green around them but struggle how to keep them healthy or even alive. Especially younger generations do not always have the knowledge and the skills. So offering solutions for those without 'green fingers' is a relevant theme for product innovations.

INSPIRATION FOR OUR INNOVATIONS

Our Dutch design team is dedicated to surprise with unique and breakthrough innovations, inspired by nature and on-top-of evolving consumer trends. elho uses a revolutionary weather & UV protection technology. This allows our products a long-lasting colour. Best quality guaranteed.

WATER MANAGEMENT Consumers are becoming more conscious about the importance of water in their environment. Sometimes there is a huge shortage of rainwater, sometimes an excess, which is worrying people. Offering products which are comforting these situations are very welcome and our indoor and outdoor plants love rainwater.

VIVO NEXT

The improved version of the popular vivo with new benefits made with recycled material, new strong construction of inner and outer pot & large and smart water reservoir included.

GREENVILLE

ROUND 14 – 16 – 18
EASY BALCONY 50

In the industrial style group the greenville grows strongly. By adding smaller sizes, herbs and small plants can be beautifully decorated in gardens, balconies and even indoor. By adding also the easy balcony, we also offer a high quality balcony solution.

GREENSENSE AQUA CARE

Offering a helping hand to those consumers who struggle with keeping their plants healthy, both indoor and outdoor. Directly fill the water reservoir via the funnel and see the water level through the indicator, the greensense aqua care makes water management easier than ever before. Made with recycled material and finished with a rough, concrete-like texture.

our inspiring INNOVATIONS

VIBES FOLD LINE EXTENSIONS

Consumers want more plants indoor, big and small, and the design of vibes fit perfectly in a cozy, friendly and fashionable interior. We extend our succesfull indoor range with smaller and bigger pots and an eye-catching coupe shape to lift your plants.

GREEN BASICS STACK & GROW

A great new way to grow your own vegetables, herbs and fruit, even if you have a small garden or balcony. Use one crate or stack multiple items horizontally or vertically.

and more INNOVATIONS

VIBIA CAMPANA BALCONY RANGE

Extending the successful vibia campana family with a totally new balcony range to address the ongoing trend of smaller spaces.

Appealing to a broad shopper audience with the high-quality rough texture and its slightly rounded body, which offers more soil capacity for plants to grow healthy. Made with recycled materials and available in a variety of soothing, friendly colours.

PURE COUPE

The premium product family pure, is extended with on-trend pots in a 'coupe' shape, enriching both in- and outdoor spaces.

THE POWER OF colour

New colours in the collection 2022 are based on 4 colour trends:

EASY COMFINESS

In this stylegroup you find soft and friendly colours like in the vibes collection. New colours are added in the brussels collection and pure coupe.

COLOURS

120 181 451 753

PRECIOUS NATURE

In this stylegroup you find colours from nature like brown and green but also more extravert colours like honey yellow. You can find them in the vibia campana balcony collection.

COLOURS

125 260 359 451 762 780

WELLNESS BUBBLE

In this stylegroup you find colours that appeal to happiness and joy, like the new bright colours in brussels mini.

COLOURS

111 625 707 753

FRESH ESSENTIALS

In this stylegroup you find colours that appeal to the feeling of a new beginning like 'pistachio green' which is a new colour in the loft urban collection.

COLOURS

118 359

We are impactful by creating with nature in mind: our collection is sustainably produced and all our products are 100% recyclable to make the world a greener place. Our ambition is to be the most sustainable in the category and therefore we are always aiming to do more. Will you join us?

More than
10,000,000 kilo
waste becomes
beauty

We always aim for more:
already more than 85% of
our materials is made of
recycled plastics

100% own
wind energy by our
own windmill in our
backyard

Designed and
made in Holland

Long-lasting
colour & quality

No more waste:
our products are made of
recycled plastics and 100%
recyclable

and ... we are proud of our 2,000,000 bees producing our own honey in our backyard.

POSITIVE ENVIRONMENTAL IMPACT

We are on our way to become a 100% circular company and realise a positive environmental impact. Our ambitions at our operations and for our products are clear: we aim to use 100% recycled materials for our pots, we use 100% renewable energy and we have a culture of continuous improvement. We also aim for generating 0% waste and limit packaging as much as possible and we realising 0% CO₂ impact. On top we will activate consumers to return their used pots so we can recycle them again.

CREATED WITH *nature in mind*

THE BEAUTY OF WASTE

Waste. For us it's sheer beauty. Last year we used more than 10 million kilos of recycled plastic that we converted into designer pots. We are inspired by the cyclicity of nature, and its ability to repair, reuse and recycle. In 2022 more than 90% of the raw materials we use will come from recycled plastic. And we aim for more.

We strive to use only recycled plastic in 2023. We are well known for our high quality standards. When it comes to sourcing of raw materials, our purchase team looks continuously for the best recycled materials to make our longlasting pots in the most sustainable way.

PLASTIC WHALE

We are proud to share our Plastic Whale limited edition of 2020. These b.for marble pots are made with two waste streams: elho regranulate and plastic bottle caps that were fished out of the Amsterdam canals by Plastic Whale. The two waste streams create a cool marble effect and make each product unique. A partnership which resulted in a unique design collection. During the design and development process nature and the conservation of our planet is always on our mind. Because small actions today... cause big changes tomorrow.

PURE GRASS

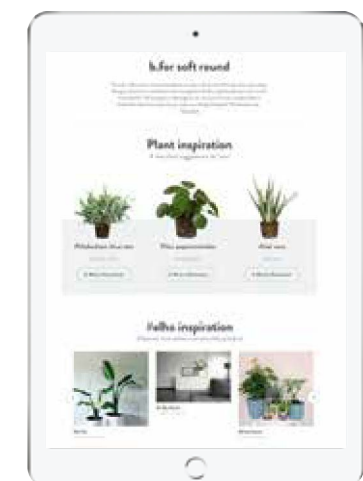

elho is always looking for new ways to make beautiful design pots from plastic waste. Do you wonder where this green colour comes from? This limited edition is made from recycled material from the waste streams of artificial grass production. In this way we prevent unnecessary waste and inspire shoppers to bring nature into their daily life.

impactful MULTI MEDIA CAMPAIGN

It's our dream to inspire as many people as possible to connect with nature in their daily lives. We will continue to bring our purpose to live and inspire consumers while building our elho brand. We activate shoppers and generate traffic to your stores.

- Millions of consumers inspired by our successful multimedia campaign
- The elho campaign activates consumers: TV, online and instore activation boosted turnover
- Impressive uplift of consumers visiting elho.com
- Majority of shoppers who buy offline do orientate online: elho supports this vital step with information and inspiration on social media, blogger networks and elho.com
- We support our retailers with top notch product content for your own webshop

TOGETHER WE ARE RELEVANT FOR FUTURE SHOPPERS

Our three partnership drivers:

1. innovation
2. meaningfulness
3. best support

PARTNERSHIP DRIVER 1: INNOVATION

Innovation is what drives our category. It is making you relevant for current and future shoppers. For many years elho is the leading innovator in the market of synthetic pottery. On a daily base our passionate team is working on innovations on 3 levels; product, supply chain and shopfloor.

PRODUCT INNOVATIONS

We surprise and seduce with new ideas and concepts

- At the forefront of trends in colour, design and technology
- Minimum of 50 innovations / year
- Widest assortment serving all consumer style groups

SHOPFLOOR INNOVATIONS

- We optimise shelves and offer attractive POS
- Best consumer centric choices based on researches and trends
- Shopper analysis for ongoing assortment optimisation
- In-store solutions for all retailer formats

SUPPLY CHAIN INNOVATIONS

We offer outstanding solutions regarding all supply chain demands

- Full in-house control of total supply chain; development, production, and logistics
- Energy efficient machines, 3 production techniques

Certified

Corporation[™]

PARTNERSHIP DRIVER 2:
MEANINGFULNESS

We are the most sustainable company in the synthetic market, and the first and only Certified B Corporation in the category. We feel it is our responsibility to develop and contribute to a greener world, and connect as many people as possible with nature. We are impactful by always creating with nature in mind. We are already a CO₂ neutral company, but we have strong ambitions. We are on our way to become CO₂ negative (thus to realise a positive environmental impact).

Join us on our green journey!

PARTNERSHIP DRIVER 3: BEST SUPPORT

Join us while we support you on every touchpoint that successfully impacts an optimal go-to-market for our products. We provide you with excellent service and the best shopper experience.

NO WORRIES, BEST SERVICE

we do what we promise

- High standard of quality & service
- Delivery On Time, In Full
- We are leading in drop shipment

BEST (SHOPPER) EXPERIENCE

the best support to inspire your customers instore and online

- We generate traffic to your stores
- Extensive range of POS materials, displays and stands
- Inspiring promo calendar
- Local merchandising teams

LET'S GROW THE CATEGORY TOGETHER

We will:

- generate traffic to your (online) stores
- grow the shopper basket value
- increase your profitability
- and improve your business results

GREENSENSE AQUA CARE

Need some assistance with taking care of your plants' water needs? The greensense aqua care makes it easier than ever before with the integrated water reservoir which can be filled directly from the water inlet. The water level is easy to read with the indicator. This designer pot is made with 100% recycled plastics and finished with a concrete-like texture.

VIVO NEXT

Meet the new vivo. This next generation is improved in many ways. A total new construction, which is stronger than before, contains a large and smart water reservoir and is now made with recycled material. These beautiful cube shaped pots are easy-to-move thanks to the integrated wheels. A plug makes these pots the ideal dividers for both outdoor and indoor spaces. Newly added in the range are the smaller sizes of 30cm square and 30x60cm rectangle.

VIBIA CAMPANA BALCONY

This family has a classic but contemporary look with its slightly rounded body, still elegant and perfectly suited to voluptuous and outgoing plants. Made with a rough, high-quality texture, available in a range of soft, cheerful, and on-trend colours that will brighten up balconies and rooftop railings even more. Based on the success of the vibia campana terrace range, a total new range for balconies is now available

VIBIA CAMPANA SQUARE

ALGARVE

A real classic collection with a Mediterranean look due to the unique floral pattern. The matching saucers, wheels and lightweight quality make these planters easy to use and move. Made with recycled plastics.

NICE THINGS TO KNOW ABOUT THE FAMILY

cilindro

long

terrace wheels

DID YOU KNOW?

The bottom of the algarve pots is slightly elevated which makes it perfect to combine with growpots and stimulates plant growth.

care & grow

COLLECTION

GREEN BASICS GROW YOUR OWN

Thanks to special growpots and grow houses, you can grow your own vegetables, fruit and herbs. With the new stack & grow it is even possible for the smallest garden or balcony. When you are thinking of grow your own, you are also thinking about watering. It's easy with our green basics rainbarrel to collect rainwater for watering your plants. For people who love gardening and are conscious about their own contribution to water saving.

PURE SMART LED

Light up your home and garden with the pure smart! This unique pot comes with a built-in coloured LED light and provides over 40,000 hours of lighting fun. With the elho app, you can easily control the colour of your pot remotely or install timers to schedule a daily routine. The pure smart can be placed both indoor and outdoor due to the watering plug and water- and frostproof parts.

PURE SMART LED SOFT ROUND HIGH

indoor COLLECTION

VIBES FOLD

After a successful launch of the new vibes fold range, the family will be extended with the introduction of the vibes fold coupe, mini's and bigger sizes. The pots will bring out the best in your indoor plants with its slightly rounded body, soft tones and decorative pattern. The coupe fits perfectly in the style trend 'easy comfiness' with its female shape.

VIBES FOLD ROUND

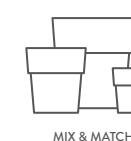

B.FOR STUDIO

Stylish, modern and trendy! b.for studio is a qualitative indoor flower pot with stand designed by Dutch designer duo Daphna Laurens. With b.for studio you bring a piece of design in your interior. Combine different pot sizes and create a contemporary atmosphere.

NICE THINGS TO KNOW ABOUT THE FAMILY

round 22cm

round 30cm

bowl

Dutch designer duo Daphna Laurens:
'The b.for studio literally takes your plants to a higher level. The way in which the pot and the stand meet and the unification of the two elements were important to us when designing the collection.'

BRUSSELS ORCHID

The orchid is a plant with beautiful flowers and deserves a specially designed pot; our pots with raised bottom ensure optimal aeration and watering of the orchids' roots. The transparent pots give the roots of the orchid extra daylight, which stimulates better root development. Together with our orchideco to give your orchid support, you can fully enjoy your orchid.
