B

Corporation™

Hello FROM ELHO

For more than 55 years we are bringing today's nature into people's daily lives with our beautiful range of synthetic pottery made out of recycled plastic and we operate in more than 75 countries worldwide. Our family company is the most sustainable partner and nr. 1 in synthetic pottery in Europe.

We feel a strong responsibility to do good across our total supply chain, with nature and our people always in mind. Since January 2021 we are proud to be a Certified B Corporation™. Certified B Corporations are companies that use the power of business to build a more inclusive and sustainable economy.

Sustainability drives our way of doing business. More than 90% of our raw materials comes from recycled plastic and we aim for more. By the end of 2023 our full assortment will be made out of 100% recycled plastic. Our production runs on our own wind energy, we have no waste during our production process and our new warehouse is one of the most circular buildings in Europe. We will, together with our team and our retail partners, continue to develop and contribute to a greener world and connect as many people as possible with nature and stimulate people to work together with nature.

In order to serve you in the best way we build our partnership on three pillars; elho is the leading **innovator** in the market with innovations in products, supply chain and at the shopfloor, and offers you the **best support**. We create all our products in the most **meaningful** way by always designing long-lasting products with nature in mind and connect with shoppers and consumers to inspire them.

Our success is therefore measurable; we offer you traffic to your stores, we will grow your shopper basket value and increase profit per m^2, which will result for you in improved business results. And together, we can make the world greener!

Give Room to Nature

elho®
GIVE Room TO Nature

GIVE Room TO Nature

Nature has given us everything. From the air we breathe, to the food we eat. We're not apart from nature – we're part of it. Its well-being is our well-being. And when it flourishes, we flourish. It's our dream to build a greener, better world – and encourage others to join us.

So let's Learn from nature – be amazed by it, inspired by it, and let's share our knowledge with others, so we can grow, together. Let's Love nature, surround ourselves with it, and bring it back into our daily lives. And let's Return the gifts the earth has shared with us. Let's be inspired by the cyclicity of nature, and repair, reuse and recycle. Because small actions today... cause big changes tomorrow.

That's why it is our mission to bring today's nature into people's daily lives and stimulate people to work together with nature. That can be in the comfort of your own garden or home but also in your neighbourhood. Did you know? A green neighbourhood connects local residents and stimulates biodiversity in the city. This makes people and nature happy.

Elho is looking for green enthusiasts. We are encouraging people to surround themselves and their neighbourhood with greenery together. Let's work together, and step-by-step, we'll create a world where nature and people can blossom.

elho®
GIVE Room TO Nature
THE BENEFITS OF nature
It makes you happier, it makes you feel healthier and it boosts your energy.

elho®
GIVE Room TO Nature
WE
LOVE
TO innovate

Innovation is what drives our market. elho is proud to be the leading innovator in the synthetic pottery market, making your assortment relevant for current and future shoppers.

1

Plants as a hobby

More and more people see plants as a hobby instead of just an object in their home or garden. This results in a more active attitude towards keeping plants, gardening and growing and harvesting. Not only because it is fun to grow your own vegetables and herbs, but also because it is tasty and healthy. Moreover, it is better for the environment to get vegetables from your own garden as much as possible.

2

Personal wellness

Personal wellness became more important than ever within covid time. Never ever before the separation between work and private life was so thin and a lot of leisure activities where not possible anymore in covid time. People rediscovered the pleasure of being in nature and feel that they can recharge themselves with plants. Plants bring feelings of vitality and improve the state of mind. An environment that includes natural elements and plants brings a positive outlook on life and boosts energy.

Sustainability

We are fully dedicated to take care of our planet for current and future generations. On our way to use 100% recycled plastic we think about the entire life cycle of our products and capture circularity in our design:

- Using sustainable resources
- No waste during the entire process
- Reusable / Recyclable

3

THEMES 2023

Plantcare

Learning to care for plants is challenging and might be a worry that keeps people from buying plants. Especially the younger generation is trying their hand at plant care as they set up homes of their own. Looking for plant care solutions for convenience and to avoid insecurities or compensate lack of knowledge.

We take the next step in worry free plant enjoyment since the consumer is seeking for convenience. We offer easy solutions to keep plants alive.

INSPIRATION FOR OUR INNOVATIONS

Watercare

The excesses and shortages of water has led to practices such as rainwater harvesting and rainwater conservation. More and more people are looking for smart water management solutions. The use of a rainbarrel will provide an alternative to using tap water for watering lawns, flower gardens and houseplants. It will help reduce peak water demands during the summer months. And it will save money.

VIBIA CAMPANA BALCONY TROUGH SIZES 50 - 70CM

Further extending the succesful vibia campana product family with balcony troughs with integrated saucer to offer plants a water reservoir. In 2 sizes, with and without balcony racks. The high quality, its rounded shape, soft texture and friendly colours make it a great offer in the midsegment.

sustainability 3

personal wellness 2

VIBIA CAMPANA DRAINPIPE CLICKER

This year, we introduce a vibia campana drainpipe clicker. The perfect concept to utilise unused outdoor surfaces, like drainpipes and turn it into a lush oasis. Now with a redesigned universal hanging system, applicable on all common drainpipe sizes 68-100mm. The high quality of the vibia campana products, its rounded shape, soft texture and friendly colours make sure this is a great offer in the mid-segment. Offering more soil capacity for plants to grow healthy.

GREEN BASICS
GROWPOTS SQUARE ALL-IN-1
SIZES 15 - 20 - 25 - 30 - 35CM
& GROW TRAYS ALL-IN-1
SIZES 32 - 39CM

Tiny growgarden facilitating growing your own vegetables, herbs and fruit. With integrated saucer, which is easy to water via the spout, and including a grow house for an optimal growth climate and protection.

our inSpiring INNOVATIONS

GREEN BASICS
RAINBARREL PLUS
SIZES 110 - 200LTR

The new rainbarrel plus offers all consumers the opportunity to save water in a sustainable way, whether they have a small or a large garden. The rainbarrels have a broad appealing design, include a tap and a stand, in order to optimally use the collected water and a planter on top. Made out of 100% recycled plastic and of long-lasting quality because of its frost and UV-resistance.

GREEN BASICS
RAINBARREL DIVERTER

To connect a rainbarrel to the drainpipe, this diverter is easy to install as it fits to all common drainpipes sizes, round and square.

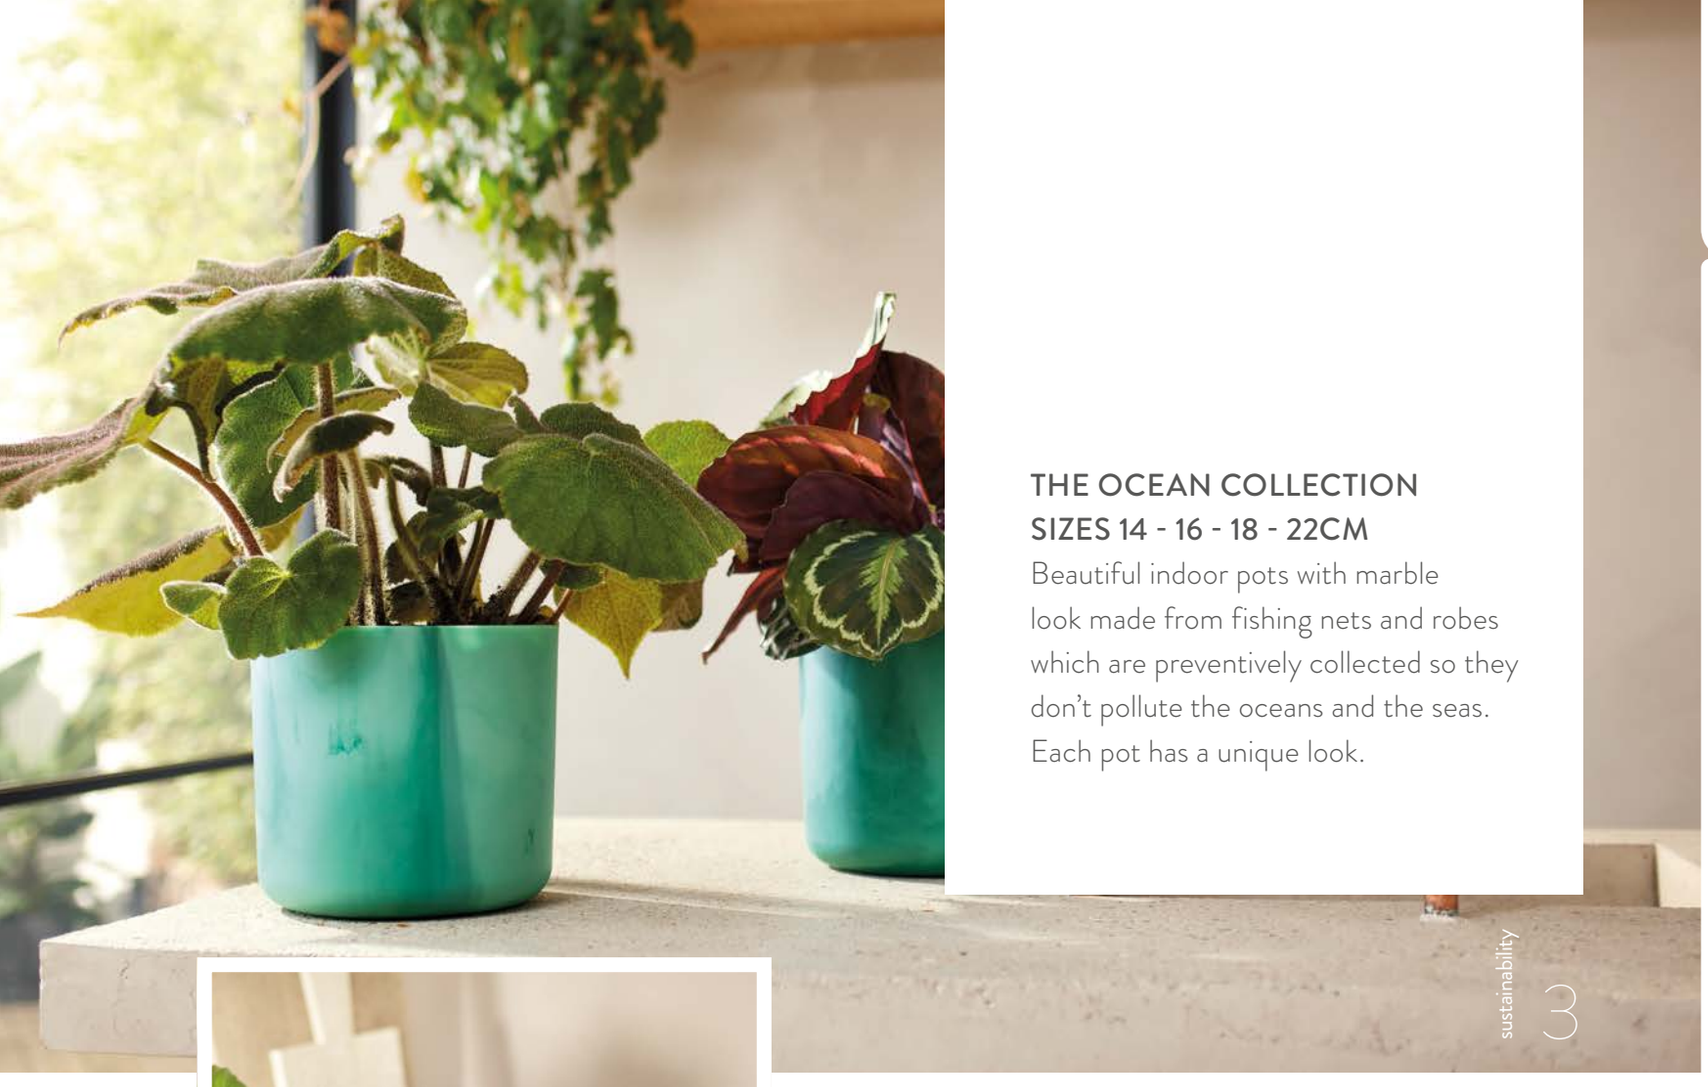
AND MORE *innovations*

NOA GROW TABLE

A complete new grow table including a grow house and all convenient product features you can think of. Supporting consumers to grow their own fruit, herbs and vegetables, even on a small outdoor space. The integrated water reservoir and water filling meter help to water your plants in a correct way, the tray offers additional space for accessories and the detachable legs and plug are convenient to clean up after the growing season. In 3 beautiful colours with a powdered texture.

B. FOR SWING

An innovative and elegant plant hanging concept to vertically green up your interior. Including high quality, sustainable robes in different lengths so you can hang up 1 pot or combine 2 pots. Easy to water via the waterspout in the pot shape or combine it with the elho self-watering insert.



THE OCEAN COLLECTION
SIZES 14 - 16 - 18 - 22CM

Beautiful indoor pots with marble look made from fishing nets and robes which are preventively collected so they don't pollute the oceans and the seas. Each pot has a unique look.

GROW YOUR OWN INDOOR BOUNCY BASIL

A fun and convenient way to keep your basil plant healthy. Beautiful designed with a large water reservoir to prevent your basil plant from drying out.

AMAZING AVOCADO

Offering consumers the possibility to grow their own avocado plant from a pit. Either with the pot, which includes a water reservoir, or with the floater.

MAGIC MICROGREENS

The beautiful design is an eyecatcher in your kitchen and makes growing your own microgreens very easy.

THE POWER OF *colour*

New trends in the collection 2023 are based on 4 style trends:

SUSTAINABLE HEDONISM

This style trend is about seeking peace and balance in an easy and comfortable way.
This is reflected in the use of balanced colours like the new colours: stone green, toffee terra and soft terra.

COLOURS

367 754 755

ODE TO NATURE

More and more it dawns on us that we are not separate from nature, but that we are one with nature. In terms of colours, this leads to a natural colour palette of greens and browns, like the new colours moss green and clay brown.

COLOURS

368 768

VINTAGE VOLKLORE

More respect for the lifespan of a product is related to this style trend and is found in colours that expresses this feeling, like the new colour sorbet green.

COLOURS

369

EXISTENTIAL POWER

Nature also has an enormous, fascinating power which is reflected in diverse colour palette like the new colour dove blue.

COLOURS

541

elho®
GIVE Room TO Nature

We are impactful by creating with nature in mind: our collection is sustainably produced, made out of recycled plastic and recyclable. And of course, produced with renewable energy from our own windmill. As your most sustainable partner we are always aiming to do more and it is our ambition to make the world a better and greener place for current and future generations. Will you join us?

and ... we are proud of our 2,000,000 bees producing our own honey in our backyard.

THE BEAUTY OF WASTE

designer pots made out of **recycled** plastics

impactful MULTI MEDIA CAMPAIGN

It's our dream to inspire as many people as possible to connect with nature in their daily lives. We will continue to bring our purpose to live and inspire consumers while building our elho brand. We activate shoppers and generate traffic to your stores.

- Millions of consumers inspired by our successful multimedia campaign
- The elho campaign activates consumers: TV, online and instore activation boosted turnover
- Impressive uplift of consumers visiting elho.com
- Majority of shoppers who buy offline do orientate online: elho supports this vital step with information and inspiration on social media, blogger networks and elho.com
- We support our retailers with top notch product content for your own webshop

LET'S BE RELEVANT

for current and future shoppers

our 3 partnership drivers

1. innovation

2. meaningfulness

3. best support

WATCH THE ELHO TRADE STORY MOVIE

PARTNERSHIP DRIVER 1:
INNOVATION

Innovation is what drives our category. It is making you relevant for current and future shoppers. For many years elho is the leading innovator in the market of synthetic pottery. On a daily base our passionate team is working on innovations on 3 levels; product, supply chain and shopfloor.

PRODUCT INNOVATIONS

Our Dutch design team is dedicated to surprise with unique and breakthrough innovations, inspired by nature and on-top-of evolving consumer trends. elho uses a revolutionary weather and UV protection technology. This allows our products a long-lasting colour. Best quality guaranteed.

SHOPFLOOR INNOVATIONS

- We optimise shelves and offer attractive POS
- Best consumer centric choices based on researches and trends
- Shopper analysis for ongoing assortment optimisation
- In-store solutions for all retailer formats

SUPPLY CHAIN INNOVATIONS

We offer outstanding solutions regarding all supply chain demands

- A state-of-the-art new warehouse, one of the most circular buildings in Europe offering extension of capacity with 40.000 m^2
- Energy efficient machines, 3 production techniques

ONE OF EUROPE'S MOST CIRCULAR BUILDINGS

The elho group has opened a state-of-the-art distribution centre. We are scaling up for the future and serve our customer from one of Europe's most circular buildings.

Our new distribution centre:

- 40.500 m^2 extra floor space
- 28 loading docks
- Cradle-to-cradle and recycled building materials
- Solar energy storage in a mega battery
- Charging point for electric trucks
- BREEAM Excellent sustainability certification
- WELL Gold certification for employee health and safety

PARTNERSHIP DRIVER 2:
MEANINGFULNESS

We are the most sustainable company in the synthetic market, and the first and only Certified B Corporation™ in the category. We feel it is our responsibility to develop and contribute to a greener world, and connect as many people as possible with nature. We are impactful by always creating with nature in mind. We have strong ambitions. We aim to be a 100% circular company. Already more than 95% of our raw material consists of recycled plastics, and we work hard to go to 100%. Together we want to make te world greener and better for future generations.

TÜV awarded the elho group, Category A certification for the use of recycled material. This makes elho the first company in the garden and flower pot segment to receive this certification. Products that are Category A certified must contain at least 97% recycled content.

Join us on our green journey!

VIBIA CAMPANA BALCONY

This family has a classic but contemporary look with its slightly rounded body, still elegant and perfectly suited to voluptuous and outgoing plants. Made with a rough, high-quality texture, available in a range of soft, cheerful, and on-trend colours that will brighten up balconies and rooftop railings even more. New addition to the range: balcony troughs in two commercial sizes plus a drainpipe clicker to utilise unused outdoor spaces to surround yourself with green.

GIVE Room TO Nature

ALGARVE

A real classic collection with a Mediterranean look due to the unique floral pattern. The matching saucers, wheels and light weight quality make these planters easy to use and move. Made out of recycled plastics.

NICE THINGS TO KNOW ABOUT THE FAMILY

- HOLES IN BOTTOM
- SAUCER SUPPORTS PLANT
- EASY TO MOVE
- MADE OUT OF RECYCLED PLASTICS
- LIGHT WEIGHT
- LONG-LASTING COLOUR
- FROST PROOF

cilindro

terrace wheels

DID YOU KNOW?

The bottom of the algarve pots is slightly elevated which makes it perfect to combine with growpots and stimulates plant growth.

GREEN BASICS GROWPOT SQUARE ALL-IN-1

elho®
GIVE Room TO Nature

NOA

Grow your own vegetables, fruit and herbs with the new worry free noa grow table! The integrated water reservoir with convenient water level indicator ensures that your plants always have sufficient water. The water reservoir is easy to fill with a watering can via the watering funnel. The matching grow house gives your plants the best growth climate and protects against birds, heavy rain and direct sunlight. Other features like a tray to store your accessories, removable legs for easy storage and a plug to remove excess water complete the grow table.

THE OCEAN COLLECTION

The pots from the ocean collection are made with maritime plastic, such as fishing nets, ropes and trawls. Our oceans are getting more polluted by this plastic ending up in our precious oceans. By using this waste in our pots, we help preventing this. The origins of the discarded ropes and fishing nets are presented in the blue and green marble accents. Admiring the beauty of our oceans and truly showing the beauty of waste.

NICE THINGS TO KNOW ABOUT THE FAMILY

- EASY INNER POT FIT
- MADE OUT OF RECYCLED PLASTICS
- LIGHT WEIGHT
- LONG-LASTING COLOUR

INNOVATION

Ever changing colour tones, so every product is unique!

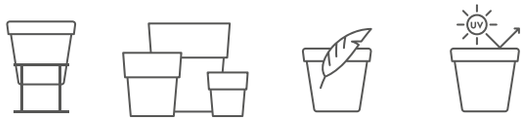
B.FOR STUDIO

Stylish, modern and trendy! b.for studio is a qualitative indoor flower pot with stand, designed by Dutch designer duo Daphna Laurans. With b.for studio, you bring a piece of design into your interior. Combine different pot sizes and create a contemporary atmosphere.

NICE THINGS TO KNOW ABOUT THE FAMILY

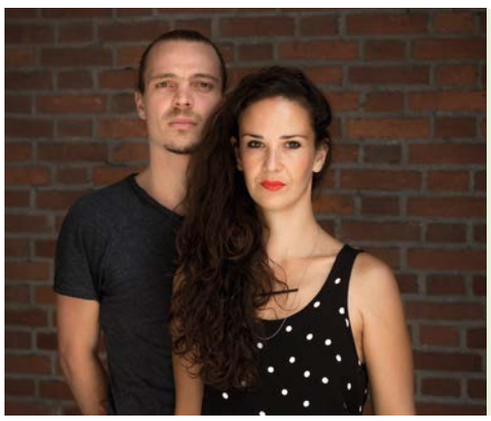


INCLUDES FRAME | MIX & MATCH | LIGHT WEIGHT | LONG-LASTING COLOUR

round 22cm

round 30cm

bowl



Dutch designer duo Daphna Laurens:
'The b.for studio literally takes your plants to a higher level. The way in which the pot and the stand meet and the unification of the two elements were important to us when designing the collection.'

BRUSSELS ORCHID

The orchid is a plant with beautiful flowers and deserves a specially designed pot; our pots with raised bottom ensure an optimal humid climate for the orchid's roots. Through the transparent pots, you can easily see when your orchid needs watering, so you can fully enjoy the beauty of your orchid.
