POTTERY IS IN OUR DNA

From Artevasi's beginning we tried to be different and disruptive in the way we approach both the market and the customer. This approach translates into sustained growth over recent years and shows the achievement and distribution of target groups spread all over the world.

We do, on a daily basis, the best to meet our customers expectations through service level, comprehensive commercial follow-up and in developing a range of products in constant evolution, adapted to the new needs of the more and more demanding consumer conscience.

I hope this new catalogue meets your needs and exceeds your expectations, as it happens today in over 1500 customers and points of sale in more than 50 countries where we operate.

My best wishes for a good season. From our part, we'll do everything to learn and grow together.

Havana, *molding earth.*

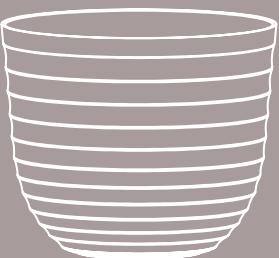

Havana calls for an organic connection with nature, bringing it closer, while merging itself with the surrounding space providing a sensorial experience. The perfect symbiosis between design and natural resources brings with it the touch and colours of the earth, the nature inspired textures and the feeling of being surrounded by it. Designed with Nature to get even closer to it, Havana molds the earth into design.

O Havana incita a uma conexão orgânica com a Natureza, aproximando-a, enquanto se funde com o espaço envolvente e proporciona uma experiência sensorial. A perfeita simbiose entre o design e os recursos naturais traz consigo o toque e as cores da terra, as texturas inspiradas na natureza e a sensação de estar envolvido por ela. Desenhado com a Natureza para trazer um pedaço dela na sua essência, o Havana molda a terra em design.

MONACO

Monaco

Monaco evolved and is now the perfect piece of art. This design award winner is loaded with new features and is now more sustainable. It is now produced with recycled materials, thinking about what's good for the planet, people and plants and contributing to the reduction of our ecological footprint. Monaco has been totally reworked to be more functional without compromising the design and becoming much more solid and resistant. Some special features like the integrated self watering system to allow a better time management and an easy care of the plants, along with the ability to provide them the best growth conditions. Monaco is full of creativity that allows any user to become a creator of great art. Much more than a vertical garden, Monaco is a Wonderwall.

O Monaco evoluiu e é agora a peça de arte perfeita. Este vencedor de um prémio de design está carregado de novas funcionalidades e é muito mais sustentável. É agora produzido com material reciclado a pensar no melhor para o planeta, para as pessoas e para as plantas, contribuindo para a redução da nossa pegada ecológica. Além disso foi totalmente repensado para ser mais funcional sem comprometer o design, tornando-se mais sólido e resistente. We are passionate about orchids, so we designed a pot that empowers these beautiful flowers, providing them the best conditions and contributing for their well-being. With a raised bottom, this pot allows roots to keep away from the water so the orchids can grow healthy and look even more beautiful. Moreover, it exists in three transparent colors that allows the contact between the roots and the sunlight.

Somos apaixonados por orquídeas, por isso desenhamos um vaso que empodera estas maravilhosas flores dando-lhes as melhores condições e contribuindo para o seu bem-estar. Com um fundo elevado, este vaso permite que as raízes se mantenham afastadas da água para que as orquídeas possam crescer saudáveis e ainda mais bonitas. Além disso, existe em três cores transparentes que permitem o contacto das raízes com a luz do sol.

Nos apasionan las orquídeas, así que hemos diseñado una maceta que potencia estas hermosas flores proporcionándoles las mejores condiciones y contribuyendo a su bienestar. Con un fondo elevado, esta maceta permite que las raíces se mantengan alejadas del agua para que las orquídeas crezcan sanas y se vean aún más hermosas. Además, existe en tres colores transparentes que permiten el contacto entre las raíces y la luz del sol.

Nous sommes passionnés par les orchidées, c'est pourquoi nous avons conçu un pot qui donne du pouvoir à ces merveilleuses fleurs en leur offrant les meilleures conditions et en contribuant à leur bien-être. Avec un fond surélevé, ce pot permet aux racines de rester à l'écart de l'eau pour que les orchidées puissent pousser sainement et être encore plus belles. De plus, il est disponible en trois couleurs transparentes qui permettent aux racines d'entrer en contact avec la lumière du soleil.

Wir haben eine Leidenschaft für Orchideen, deshalb haben wir einen Topf entworfen, der diese schönen Blumen stärkt, ihnen die besten Bedingungen bietet und zu ihrem Wohlbefinden beiträgt. Mit einem angehobenen Boden können die Wurzeln in diesem Topf vom Wasser ferngehalten werden, sodass Orchideen gesund wachsen und noch schöner aussehen können. Darüber hinaus gibt es drei transparente Farben, die den Kontakt zwischen den Wurzeln und dem Sonnenlicht ermöglichen.
