Made to grow

*We believe in a smarter way of making planters.
Welcome to Capi Europe.*

We are a Dutch flower pot manufacturer with a green heart. What once began as a small idea in Holland has grown into an international brand operating in over 60 countries worldwide.

We design in-house and produce a large part in our own factory in the Netherlands, combining innovation, quality, and sustainability. The result is a collection of lightweight, durable planters with outstanding performance and a distinctive, timeless design.

Inspired by nature, our collections bring greenery closer, indoors and outdoors, for people who value style, quality, and longevity, helping to bring nature closer to home, whether on the balcony, in the garden or at the office.

Original design

We design every planter in-house and create collections you won't find anywhere else.

Smartly produced

Innovative techniques make our planters lightweight and strong.

Built to last

Using recycled materials and local production.

For every type of plant lover

From design enthusiasts to urban balcony gardeners.

The Rope texture is shaped by the traces of tightly wound ropes that were used to create the original mold. Their overlapping lines and subtle irregularities result in a warm, handcrafted texture that reflects the making process itself.
