Be invited

OurAtelieris locatedina historic ceramic area and contains 1000m^2 of craftmanship of European production.

Enjoy your visit with a nice dinner at our restaurant with local seasonal food & homemade wines.

This craftsmanship is the foundation of quality

Thanks to our many years of experience and our in-house production, we can guarantee high quality standards.

We challenge ourselves every day; we never settle or compromise for convenience, and never take shortcuts that would compromise the quality or standards of Koberg

Meanwhile, we are building our future; we are starting with the renovation of our 1933 warehouse, rather than erecting a new building, that would be far too easy, because we are truly convinced that:

New ideas need old buildings.

Do not forget kindness today, embrace!

MORE QUALITY, LESS GOODS

DA BRAND STORY

GINA DA BRAND STORY

EVERY PRODUCT IS TIMELESS, WARM & AUTHENTIC

Gina Da stands for diversity, worldly influences and the feeling of family. Gina Da is there for everyone.

Crafted European ceramics forms the basis but also products with origins in metal, wood and grasses deserve a place in our collection. These ingredients together form the basis for our collections within Gina Da. The words ‘Gina Da’ literally translates as ‘family home’ made of clay. The collection features authentic products by the choice of materials.

1240C BRAND STORY

1240C COLLECTION IS DESIGNED WITH THE GREATEST CARE AND ATTENTION

1240C is the product of years of experience and knowledge of our craft: unprecedented quality. 1240C restores everything to its original state: a ceramic pot was meant to be watertight, it was only years later that the pot was given its decorative function.

We've brought these two together, and we're proud of the result: stoneware pottery fired at 1240°C, just like the pots our parents and gardening professionals used to use.

HANDMADE IN PORTUGAL

The brand is named after the temperature at which this stoneware has been fired: 1240 degrees Celsius. Through its versatile nature, 1240C is a beautiful addition to your collection, and above all timeless and sustainable.

QUALITY AND PRICE TAILORED TO YOUR NEEDS

We take the time to find the best material, glaze and shape together. You provide the drawing, the first step in bringing your ideas to life. After your approval, we create a prototype and adjust it if needed. Once finalized, we start production and agree on quantities and pricing together.

THE CRAFTSMANSHIP SHINES THROUGH

KIL, THE SPECIALIST IN TAILOR MADE CERAMICS
