**Phoenix gives new life to products
that have already had a useful life.**

Phoenix

- Phoenix Post-Consumer made from products that have already had a useful life.
- Very resistant to scratching because ABS plastic absorbs paint much better than most plastics.
- Casters, Liners and Sub-irrigation are available for key items.
- All Liners are equipped with a robust centered column.

All colours ship within 5 business days.

Wicks from Nature's Green

Wicks have long been a successful method for extending watering cycles in commercial environments.

By applying wick technology to a tilted grow pot, watering cycles of 10 days to 3 weeks or more can be achieved. Simply add the specified amount of water to each tray and allow the wicks to draw water into the grow pots. Nature's Green has sturdy Caponic wicks in stock at all times.
