Placement

Placing PlantPods in FlaxFarm

To start growing with your FlaxFarm, simply remove the cardboard lid from each PlantPod and place them in the farm.

Placement does not affect plant growth — you can put the PlantPods wherever you like!

Harvesting

Step-by-step guide

Step-by-step guide:

- 01.** Remove the HydroPot (see image on the back) from the FlaxFarm and place it on a flat surface.
- 02.** Use scissors to harvest the crop.
- 03.** Hold the HydroPot upside down to dispose of the used PlantPod. Remove any remaining debris or roots.
- 04.** Insert a new PlantPod into the HydroPot and and place it back into the FlaxFarm.
